1.2 Гиндэ Анатолий Алексеевич

GHINDĂ Anatolie Alexei, născut la 02 august 1951 într-o familie de pedagogi din satul Ruseștii Noi, raionul Ialoveni (anterior raionul Kotovsk, recent Hâncești). În familia de 5 copii – (doi băieți și trei fete) Anatolie a fost al treilea copil.

În 1966 a absolvit 8 clase, continuând învăţătura la Colegiul Pedagogic din Călăraşi, pe care l-a absolvit în 1970. A început activitatea pedagogică în localitatea de baştină, Ruseştii Noi ca învăţător la clasele primare, ca după 2 luni să fiu înrolat la serviciul militar. Reîntors din armată, în 1972 am intrat la facultatea de matematică a Institutului Pedagogic de Stat "Ion Creangă" din Chişinău. După absolvire, în anul 1978 am revenit la şcoala medie din localitate activând ca instructor superior de pionieri, citind şi câteva ore de matematică. După câteva cursuri de reprofilare am citit şi ore de muzică şi artă plastică. Aproape 10 ani am activat prin cumul la gradiniţa de copii ca conducător muzical.

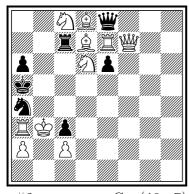

În 1980 sunt căsătorit. Am două fiice, doi nepoti. Din 1985, când a fost introdus informatica ca obiect de studii, din nou după cursuri de reprofilare activez şi până în prezent ca profesor de informatică și educație plastică la Liceul Teoretic din Ruseștii Noi.

Antologia de pasiuni nu este limitată, deaceea nu pot pune accent pe una sau două ocupații preferate. Prefer să nu fiu indiferent de tot ce mă înconjoară: muzica, desenul, şahul, fotografia, să meșteresc, să citesc, să creez ceva nou, să rezolv din matematică, programare, şah, studii psihologice, să cultiv plante în grădină, să admir natura, să apreciez și să prețuiesc frumosul, să promovez valoarea.

Ca să nu fiu rezervat, țin să constat că şahul a fost o pasiune mai veche. Am învățat să joc în clasaa a 7-a. Deoarece nu prea erau pasionați de şah, nu aveam cu cine juca, am preferat să rezolv probleme de şah din ziare şi reviste. Astfel am participat la majoritatea campionatelor republicane de dezlegări a compozițiilor de şah, care mai apoi mi-a inspirat dorința de a compune probleme de şah. La început pentru mine, apoi am încercat şi pentru concursuri

internaționale ca România, Polonia, Croația, Rusia. Până în prezent sunt create peste 200 de probleme de şah (mat direct în 2,3, invers, ajutor în 2-8 mutări) dar şi de alt gen precum în stil de şah distractiv. Cea mai mare parte din compoziții sunt de gen neortodoxal. Câteva zeci de probleme au primit mențiuni la concursuri, iar unele fiind premiate cu locul I, II sau III. Prefer să fiu mai mult un analist şahist decât un şahist jucător.
